Alhambra, CA | 626-418-3666 | timzhang.email@gmail.com | [GitHub](#) | [Portfolio](#)

EDUCATION

University of California, Los Angeles (UCLA)

B.S. in Computer Science

Los Angeles, CA

Expected May 2027

East Los Angeles College

Early College Program

Rosemead, CA

Aug. 2020 – May 2024

EXPERIENCE

Computer Lab Consultant

UCLA SEASNet

Mar. 2026 – Present

Los Angeles, CA

- Support 100s of engineering students and faculty daily, diagnosing and resolving software, hardware, and network issues to minimize lab downtime
- Collaborate on lab-wide system improvements to enhance reliability and user experience

Translator / Transcriber

TED Translators

Jun. 2022 – 2024

Remote

- Translated TED Talk scripts between English and Simplified Chinese and produced time-synced subtitles for global accessibility, managing multiple concurrent projects to consistent deadlines

PERSONAL PROJECTS

AI Email & Document Automation | *Zapier, OpenAI ChatGPT, Claude, Gmail API, Google Drive*

- Built no-code Zapier pipelines connecting ChatGPT and Claude to Gmail to draft, schedule, and auto-reply to email, and to Google Drive to generate on-demand document summaries with custom prompt instructions

Yu-Gi-Oh! RAG Chatbot | *LangChain, LangGraph, ChromaDB, Ollama*

- Built a Retrieval-Augmented Generation chatbot over a 14,500-card database with a LangGraph ReAct agent for tool-calling, combining semantic vector search with metadata filtering to avoid hallucinated answers

CrewAI News Agent | *CrewAI, Ollama, Serper*

- Orchestrated a two-agent pipeline (CrewAI) where a News Collector agent grounds its search in live web results and a News Reporter agent turns those findings into a validated headline, running entirely against a local LLM

ESPORTS.DATA – Full-Stack Analytics Dashboard | *Next.js, TypeScript, Turso (libSQL), REST APIs*

- Built a full-stack, responsive web app covering 98,000+ records across a SQL (libSQL) database, exposing the data through a dedicated set of REST API routes

COURSE PROJECTS

Semantic Matching & Reasoning with Language Models | *PyTorch, Hugging Face, LoRA*

- LoRA fine-tuned Qwen2.5-1.5B on GSM8K math reasoning (36% → 49% accuracy, under 0.15% of parameters trained) and fine-tuned a DistilBERT cross-encoder for paraphrase detection (61.8% → 81.9%)

TECHNICAL SKILLS

AI Tools & Automation: ChatGPT, Claude, Zapier, prompt engineering, agent/tool-calling workflows

No-Code & Business Platforms: Google Workspace (Docs, Sheets, Drive), Gmail API, REST API integrations

Languages: JavaScript, TypeScript, Python, C++, HTML5/CSS3, SQL

Frameworks & Libraries: React, Next.js, Node.js, Tailwind CSS, Framer Motion

Developer Tools: Git, GitHub, Vercel, VS Code, Claude Code

Human Languages: English, Mandarin Chinese, Cantonese

CERTIFICATIONS

AI Fluency: Framework & Foundations, Claude Code 101, and Claude Code in Action (Anthropic)

CS50's Introduction to Programming with Python (Harvard University, 2024)
